ETHYL PROPIONATE

CAUTIONARY RESPONSE INFORMATION Common Synonyms Pineapple-like Propanoic acid, ethyl ester Floats on water Avoid inhalation. Wear full impervious protective clothing and approved respirator Shut off all possible sources of ignition. Call fire department. Notify local health and pollution control agencies. Fire Flammable Vapors can flow to distant ignition source and flash back Wear full protective clothing with self-contained breathing apparatus. Extinguish fire with dry chemical, alcohol foam, carbon dioxide. Use water spray to cool exposed containers. CALL FOR MEDICAL AID. **Exposure** VAPOR Move victim to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen. Irritating to skin and eyes. Overexposures may have a narcotic effect. Remove contaminated clothing and shoes. Wash affected areas with soap and water. IF IN EYES, hold eyelids open and flush with plenty of water. Effect of low concentrations on aquatic life is unknown. Water May be dangerous if it enters water intakes Notify local health and wildlife officials. Notify operators of nearby water intakes. **Pollution**
